Morris & Snow Seed Co.

8th and Wall Street

Los Angeles, Calif.

The Morris & Snow Seed Co. has since its inception in 1900 catered particularly to those who make a living from the sale of flowers and plants.

This organization is not a seed department store nor a packet seed house, but devotes its wholehearted efforts to the interest of professional growers, to whom it is of the utmost importance to obtain right strains.

We are located in Los Angeles within easy reach of the 5000 acres which in California are devoted to the growing of flower seeds. We can thus often inspect the growing of crops and choose the best strains.

We are located at 8th and Wall Streets in the very heart of the Los Angeles flower markets which are among the largest in the world, and every member of our organization is in constant touch with those whose main interest is the growing of flowers and plants.

Having no dealers to protect we give absolute wholesale price to our customers and do not have a dealer's price and a growers' price.

All prices in this catalogue are subject to change without notice.

TERMS OF SALE—Thirty days net cash to customers of approved credit or established account. New customers cash with order, C.O.D. or satisfactory reference.

Half ounce will be charged at ounce rates; half pounds at pound rates.

We give no warranty expressed or implied—as to purity, description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the Crop. If purchaser does not accept the goods on these terms they are to be at once returned.

MORRIS & SNOW SEED CO.
